

Final Project Presentation requirements

(DevOps External Online Course)

Format: Project Presentation + technical questions (regarding final project and educational program)

The presentation should be formed in accordance with the task and what was implemented in the project.

Language: verbal presentation and slides in English.

If you feel during the interview that the level of English is insufficient, ask the interviewer to switch Ukrainian/Russian.

Presentation & Interview structure (up to 60 min):

- Self-Presentation (apx.2 min) – 1 slide with your photo and 2-3 facts about you
- Project Presentation– 3-4 slides about the project (if there are more slides, make sure you manage in time) & Live Demo CI/CD Pipeline (apx.10 min) and Technical questions (apx.10 min)
- Technical questions related to the education program (up to 40 min)
